

AVAILABILITY

YEAR-ROUND

The Florets are the traditional “Dragon jaw” type – they appear to have upper and lower lips.

Tall Stems of Floral Delight SNAPDRAGONS

Our selection of Snapdragons is just so impossibly cheery and colorful. The tall stems embellished with velvety florets make a spectacular focal point in arrangements.

FARM FRESH: We work hard to ensure our Snapdragons achieve the desired bud count, vibrant color and plant height. Sun Valley Snapdragons are sustainably grown in our sunny Baja California farm – backed by Rainforest Alliance Certification.

LENGTH: Stem lengths from 24” to 36”.

COLD CHAIN: Our on site warehouse keeps flowers cold immediately after harvest until they get to you! This is better for the flowers, a lower carbon footprint AND saves on shipping costs.

LASTING: Long-lasting vase life up to 8 days.

BUNCHES: Standard bunch size: 10 stems. Also available as Consumer Bunches.

CARE & HANDLING: Snaps are very geotropic – best shipped upright. Upon arrival cut stems and place into a clean container with fresh, tepid water with fresh flower food solution. Remove any foliage below the water. Keep in cool location out of direct sunlight and drafts. Replenish water as needed.
