Everyone Loves Berries!

Enjoy Sun Valley's premium Snowberries this September!

Branch out with Berries!
Enjoy a spectacular show
with these graceful arched
stems beaded with small
white or pink berries.

AVAILABILITY

END OF AUGUST
THROUGH
SEPTEMBER

COMMON NAME: Waxberry

HISTORY: Known to have been used for medicinal purposes by Native Americans of the Pacific Northwest.

FARM FRESH: Sun Valley Snowberries are grown in an inland mountain canyon where the micro-climate provides Sun Valley a prime location to produce these specialty branches for fantastic September show.

LENGTH : Branches of softly arching stems up to 24" to 32"

LASTING: 7 to 10 days

BUNCHES: Standard bunch size: 10 stems. Also available as Consumer Bunches.

DISPLAY: Invigorate seasonal arrangements with Snowberries! These charming, liberally berried branches add bright touches of color, texture and intrigue to arrangements.

CARE & HANDLING: Upon arrival cut stems and place into a clean container with fresh, tepid water and fresh flower food solution. Keep in cool location out of direct sunlight and drafts. Replenish water as needed.

- With such a short season be sure to place your order today!
- It is normal to have some berries drop in transport. It is also natural for some leaves to drop as the Snowberries mature.
- Snowberries are somewhat toxic to humans if ingested.
